0% Interest • No Credit Checks • No Turndowns • 100% approvals

Immediate Advertising Results • Phones Ring • Traffic Soars

You Can Give Your Clients the Ability to Buy Today!

And it Comes with a Total Satisfaction Money Back Guarantee

This Program is designed to Get More Customers in Your Door and then GET THEM APPROVED!

Differentiate your business from the Competition: *Gets you more clients or patients*, just imagine a promotion with "90 days Same as Cash" and 0% Interest up to 36 months, that's right, 0% Interest • No Credit Checks • No Turndowns • 100% approvals. Locations using our system have had as much as 700% increases in advertising effectiveness.

We all know that 90 Days Same as Cash and 0% Interest for longer terms are very attractive for all your clients that have prime credit, but sub-prime clients love it too and are attracted to "No Credit Checks and No Turndowns", everyone's approved. Now your advertising really pulls and that phone starts to ring. In America today, according to the credit bureaus more than 50 percent of the marketplace have had issues with sub-prime credit, and you have No Turndowns, now your business is going after 100% of the market, the competition cannot keep up. And we allow you to charge the Customers to cover the cost of the system.

Ours is a complete program, designed from the ground up to do just that, get additional customers in the door. The average retail location currently does 6-10 additional sales per month with our programs. Let's average that to 8 additional sales per month at an average of \$1500 per sale. That's 8 x \$1500 x 12 months. That's an average increase in sales of \$144,000 per year in this economy. And the best part is our program costs less than \$120 per year when you use it properly, and with only a small setup fee out of pocket, as you get started today, the profit from your 1st sale will more than cover the setup cost in most cases.

What that means is an average of \$144,000 comes in, \$120 goes out. That's a really great investment.

But Wait??? -- What if my location does less than the average 8 additional sales per month?

Ok, let's look at the chart below, where does your business fit?

Additional New Sales per Month	Average Yearly Gross Sales Increase	Yearly Cost for In House Options
10 additional sales	\$180,000 increase	around \$120 per year
9 additional sales	\$162,000 increase	around \$120 per year
8 additional sales	\$144,000 increase	around \$120 per year
7 additional sales	\$126,000 increase	around \$120 per year
6 additional sales	\$108,000 increase	around \$120 per year
5 additional sales	\$ 90,000 increase	around \$120 per year
4 additional sales	\$ 72,000 increase	around \$120 per year
3 additional sales	\$ 54,000 increase	around \$120 per year
2 additional sales	\$ 36,000 increase	around \$120 per year
1 additional sale	\$ 18,000 increase	around \$120 per year

And what if something unrealistic happens, and you do only 1 additional new sale every 2 months (or ½ per month), that's right 1 additional sale every 2 months. You still gross around \$9,000 per year on a \$120 investment, you gross 75 times the investment in this worst case situation, still absolutely a great investment. Let's be clear here, only 1 additional sale per year, will more that pay the total price of this program.

One of our locations did more than \$24,000 additional dollars each month increasing sales by over \$288,000 the first year. Can you afford not to have this product in today's economy, how long are you willing to absorb this kind of preventable loss.

But Wait??? - I already have CarCareONE, CareCredit, LightHouse, American General, Progressive or some other system.

Remember Our Program has been Designed to Get Additional Customers in Your Door.

0% Interest "90 days Same as Cash" and /or Longer Terms up to 36 Months

0% Interest • No Credit Checks • No Turndowns • 100% approvals

Our program has been designed to get and approve **all of the customers that other programs have missed or turned down.**

Choice^eCredit comes with a Total Satisfaction 100% Money Back Guarantee on all setup fees and we offer a one (1) year Risk Free Test Drive using the system. How long do you need to think about this? Just remember if your location is average it is costing you more than \$400 per day by not having this program, that's more than \$2,800 per week, or more than \$12,000 per month. In this economy how long can you afford this preventable loss.
